PATHWAYS TO POPS

PROGRAM INFORMATION
2018

PATHWAYS TO POPS is an extended transition to school program and is designed for children who are developmentally ready to undertake an extended program as well as their regular preschool activities and are eligible to begin school in 2019. It is designed specifically for those children who need extra stimulation in the second semester of the year prior to school entry and who demonstrate readiness for school.

The program does not replace the regular transition to school program conducted by the school in term four.

The program will encompass the philosophy of the school's Vision and Values and will be conducted according to the behavioural expectations as set out in the school's Student Engagement and Wellbeing Policy.
